

ENVIROMENTAL

Hascon Civil is committed to continually improving our environmental performance through project solutions that minimise our environmental impact and prevent pollution. We operate under and in accordance with an Environmental Management System that is based on ISO 14001 standard requirements.

To achieve this commitment Hascon Civil will:

- Establish and maintain an Environmental management system based on AS/NZ ISO 14001
- Measure environmental objectives and targets to evaluate our performance
- Periodically review systems, processes and procedures for suitability and effectiveness
- Establish and maintain positive relationships with the community and stakeholders
- Ensure accountability of suppliers and subcontractors to meet their environmental responsibilities
- Comply with all applicable environmental laws, regulation and client specific environmental requirements
- Undertake risk assessments to ensure the protection of heritage, biodiversity, land and waterways
- Manage potential community impacts related to air, quality, noise and vibration

Hascon Civil will seek continual improvement throughout our business operations to lessen our impact on the environment by conserving energy, water and other natural resources, reducing waste generation and recycling.
