

QUALITY

Hascon Civil delivers civil and water infrastructure projects to the Infrastructure and Mining sectors. Hascon Civil is committed to delivering our projects to the highest standard without compromise and in line with our core values of safety, innovation, teamwork, and ethics.

To achieve this vision, Hascon Civil will:

- Establish and maintain a Quality Management System based on AS/NZ ISO 9001
- Provide a culture of quality ownership amongst all employees
- Develop and implement plans to meet client specified requirements
- Provide the resources needed to implement and maintain the Quality Management System
- Train and support our people
- Measure objectives and targets to evaluate our performance
- Periodically review systems, processes and procedures for suitability and effectiveness.

We continually strive to meet or exceed requirements in a professional manner and provide our clients cost effective project solutions.

A handwritten signature in blue ink, appearing to read 'Paddy Hayes', is positioned above the printed name.
